

Interested in learning how to keep your septic system functioning properly?

Attend the Homeowner Maintenance of Septic Systems Class for Free!

This 2 hour class provides a basic understanding of the operational and maintenance activities of conventional and aerobic septic systems, and explains how activities within the home impact septic systems. Presentations will cover the treatment processes, health and safety considerations, and an overview of how to inspect and maintain the system. This course also provides answers to the most frequently asked septic system questions, including when to pump out a tank and what can or cannot go down the drain. The program is presented in cooperation with the Mill Creek Watershed Partnership. An overview of the Mill Creek Watershed Protection Plan and Implementation project will kick off the class.

Class Information:

WEDNESDAY, MAY 30, 2018

REGISTRATION STARTS AT 5:30PM

CLASS RUNS FROM 6:00PM—8:00PM

WASHINGTON COUNTY FAIRGROUND

SALES FACILITY

1305 EAST BLUE BELL ROAD

BREHAM, TX 77833

Cost: Free!

To register: Seating is limited, so contact Kara Matheney at

979-277-6212

Why Should You Attend?

Learning about your septic system can be fun and may help prolong the life of the system. Septic systems are not “flush and forget” systems! Therefore maintenance is essential to ensure proper function and longevity of your septic system. Attendees will gain a better understanding of how to maintain their septic system to protect the health of their family and the environment.
