

# HOMEOWNER MAINTENANCE OF SEPTIC SYSTEM COURSE

**August 27, 2021**  
10:00 am - 12:00 pm

## Interested in learning how to keep your septic system functioning properly?

This 2 hour course provides a basic understanding of the operational and maintenance activities of conventional septic systems, and explains how activities within the home impact septic systems. Presentations will cover the treatment processes, health and safety considerations, and an overview of how to inspect and maintain the system. This course also provides answers to the most frequently asked septic system questions, including when to pump out a tank and what can or cannot go down the drain.
