Mill Creek Watershed Partnership

A Note from the Watershed Coordinator

This time of the year gives a great opportunity to reflect on what 2020 has brought into our lives. The challenges of this year have reminded us how much our health and wellbeing are dependent on the natural resources; in particular, clean water. Now more than ever, it is important to work together to protect our water resources and ensure their long-term sustainability for the future.

New Year?..... Yes, please! As 2020 winds down, I am sure every one of us is anxious to find out what 2021 has in store. While we are waiting for our lives to return back to normal, we are thankful for the opportunity to stay in touch with each other via the internet. We will kick 2021 off with our first-ever virtual stakeholder meeting, which will provide updates to the stakeholder community on the implementation of the Mill Creek Watershed Protection Plan, participate in a public discussion, and exchange ideas and opinions about this collective stewardship effort.

Depending on the developments and safety guidelines, we will plan to have the Mill Creek Cleanup Event in the spring and offer multiple workshops and other educational resources throughout the year. Don't forget to check our website for the upcoming [meetings and events!](#)

I am excited to be able to connect with our stakeholders through our brand-new [Facebook](#) page! Visit, ask questions, share your thoughts with fellow stakeholders, follow, and stay up-to-date! You may find us on [Twitter](#) as well!

Let 2021 to be the year of new beginnings and exciting opportunities! Warmest wishes for a happy and safe holiday season and a wonderful New Year!

Evgenia

Save the Date!

Stakeholder Meeting - January 12, 2021

The Mill Creek Watershed Partnership is pleased to be hosting a virtual stakeholder meeting on Tuesday, January 12, from 6-7 pm. This meeting will be open to the public, providing updates to the Mill Creek Watershed Protection Plan. Participants are invited to discuss local water quality issues and meet the new Watershed Coordinator, Evgenia Spears. A link will be sent via email the week before the meeting.

Voluntary stakeholder engagement is imperative for the restoration and future protection of the Mill Creek Watershed. To learn more about the project or how to get involved, please visit our website at <https://millcreek.tamu.edu>, or contact the Watershed Coordinator, Evgenia Spears, at millcreek@tamu.edu or (979) 845-2862.

We are looking forward to seeing you at our first-ever virtual stakeholder meeting!

Follow us on Facebook and Twitter to stay up-to-date on the news and upcoming events related to the Mill Creek Watershed Protection Plan: @MillCreekWater.

Funding for this effort is provided through a Clean Water Act §319(h) Nonpoint Source Grant administered by the Texas State Soil and Water Conservation Board from the U.S. Environmental Protection Agency.
